

Barrier-Bac White Bond Tapes are used to install Barrier-Bac vapor barriers by sealing the laps of vapor barrier sheets.

### **White Bond Tape**

Barrier-Bac White Bond Tape is a smooth-surface, 7 mil tape. Its adhesive is made with a synthetic rubber compound which provides excellent bonding in low temperature applications. With easy-tear edge and no release paper, this tape is easy to use on the job site.

Application & Installation

**White Bond Tape**

This smooth-surface tape is used to join seams/joints, seal penetrations and repair damage of Barrier-Bac vapor barrier VB-250 / VB-350 / VBC-350 / VBC-90.
