

IntePlus® Films Safety Data Sheet

1. Identification

Identification of the substance

Product Code: IntePlus® Films, Barrier-Bac® Films, All Grades

Product Description: Polyethylene films in various colors

Synonyms: IntePlus XF Film, VF Film, Coextruded PE Film, Cross Laminated PE Film, Spiral Cut PE Film, Barrier-Bac VB-250, Barrier-Bac VB-350, Barrier-Bac VB-500, Barrier-Bac VB-600, Barrier-Bac VB-700

Use(s) of the substance: Packaging films or vapor barrier films

Restriction(s) on use of the substance: None known

Company Identification

World-Pak Division, Inteplast Group Corporation

101 Inteplast Blvd., Lolita, Texas 77971

Phone: (361) 874-3737 Fax: (361) 874-3978

Emergency Telephone: (361) 874- 3737

2. Hazard(s) Identification

Physical Appearance: Films that are natural translucent or in various colors

Immediate Concerns: When using or handling IntePlus® Films as supplied, there are very low hazards.

OSHA Hazard Category: Combustible dust

GHS Hazard Categories: Not classified

Signal Word: Warning! This product as shipped is not classified as a combustible dust; however, a combustible concentration of dust may occur if fine powders accumulated or suspended in an enclosed or confined area (e.g. from cutting or sanding the product).

Pictogram: There is no pictogram for a combustible dust hazard

Rough edges of the products could result in minor cuts to hands. Appropriate gloves should be worn to prevent cuts and/or scraps.

Avoid contact with strong oxidizing agents

When working with the IntePlus® Films at hot temperatures, the material may begin to decompose producing fumes that can contain carbon dioxide, carbon monoxide, and other unidentified organic compounds that come from the breakdown of the materials used to make the films. Adequate ventilation should be provided to minimize exposures to vapors and fumes.

When cutting, shaping or modifying IntePlus® Films, other hazards may exist

Potential Health Effects

Eyes: Dust from cutting may result and mechanically irritate the eyes; if using elevated temperatures, vapors may irritate eyes.

Skin: Cuts or scraps referenced above; if using elevated temperatures to soften the IntePlus® Films,

IntePlus® Films Safety Data Sheet

exposure to molten resin may cause thermal burns.

Ingestion: May cause choking if swallowed.

Inhalation: Inhalation of dust at high concentration may cause irritation of the respiratory system; inhalation of vapors from use of elevated temperatures may also cause irritation of the respiratory system.

3. Composition and Information on Ingredients

The primary composition of this product is polyethylene. This product contains a proprietary blend of components encapsulated within a polymer matrix.

Chemical Name	CAS Number	Wt. %
Polyethylene	9002-88-4	50-100
Proprietary	Mixtures	0-50

4. First Aid Measures

The following should apply to the IntePlus® Films to be cut, sanded or otherwise processed which generates dust, debris or vapors.

Eye Contact: Immediately flush eyes with water for at least 15 minutes. Do not rub the eyes. If irritation develops, consult a physician.

Skin: Get medical attention for serious burns. In case of skin contact with hot IntePlus®, immediately immerse in or flush with clean, cold water.

Ingestion: Consult physician.

Inhalation: Move to fresh air. If irritation persists or breathing is difficult, get medical attention.

5. Fire Fighting Measures

Extinguishing Media: Foam, dry chemical, carbon dioxide (CO₂)

Hazardous Combustion Products: Carbon monoxide, carbon dioxide, and other possible toxic combustion products.

Explosion Hazard: Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Special protective equipment for firefighters: Use self-contained breathing apparatus and full protective gear.

Sensitive to Static Discharge: Static discharge could be an ignition source for a combustible concentration of dust.

IntePlus® Films Safety Data Sheet

6. Accidental Release Measures

As supplied, the product presents no risk of spill or release.

7. Handling and Storage

Precautions for Safe Handling: Wear safety glasses during cutting and fabricating processes. Electrostatic charge may build up during handling. Grounding of equipment is recommended.

Handling: If the product is cut or sanded, avoid exposure to dust and debris. Provide appropriate local ventilation at machinery and at places where dust can be generated. In addition, wear suitable respiratory equipment to avoid breathing dusts containing titanium dioxide and/or carbon black.

Storage: Store in a dry place and away from direct sunlight. Keep away from heat, flame and strong oxidizing agents.

8. Exposure Controls and Personal Protection

Occupational Exposure Limits: Not applicable.

Engineering Controls: Ventilation Requirements – General ventilation should be sufficient. However, if operating conditions create high airborne concentrations of this material, special ventilation may be needed. If handling results in dust generation, special ventilation may be needed to ensure that dust exposure does not exceed the OSHA PEL for nuisance dust.

Personal Protective Equipment

Respiratory Protection: Not required under normal handling and processing. Should conditions exist that require respiratory protection, for example while cutting or sanding generating dusts, a NIOSH/MSHA approved respirator should be worn.

Eye Protection: When cutting or processing the product, wear safety glasses with side shields.

Body Protection: Wear protective gloves to avoid incidental cuts or scraps that could occur when handling the edges of product.

9. Physical and Chemical Properties

Physical Form: Solid Films

Specific Gravity: 0.7 to 1.2 (water = 1)

Appearance: Solid films with various colors

Odor: Insignificant

Solubility in water: Insoluble

Melting Point: 120-130°C

Flash Point: Not Applicable

Auto Ignition Temp: Not Applicable

The physical data presented above are typical values and should not be construed as a specification.

IntePlus® Films Safety Data Sheet

10. Stability and Reactivity

Chemical Stability: Stable

Conditions to Avoid: Do not store product near heat or flame. When cutting or sanding, minimize dust generation and accumulation. Avoid contact with strong oxidizing agents.

Hazardous Decomposition Products: No dangerous decomposition products known

11. Toxicological Information

Acute Toxicity

Skin Irritation: Not expected to cause skin irritation.

Eye Irritation: Mechanical eye irritation

Sensitization/Allergic Reaction: No sensitizing effects known

Repeated dose toxicity: No known chronic health effects.

12. Ecological Information

Ecotoxicity: No data is available on the adverse effects of this product on the environment.

Persistence and Degradability: No data available

Bioaccumulative Potential: No data available.

13. Disposal Considerations

Disposal Method

- (1) Recycle (reprocess) and reclamation of IntePlus films should be encouraged where possible.
 - (2) Incineration including energy recovery of waste material in a permitted facility in accordance with local, state or provincial and federal regulations.
 - (3) Landfilling in a licensed facility in accordance with local, state or provincial and federal regulations.
-

14. Transport Information

This product is not regulated as a hazardous material/dangerous good for transportation. This product is not regulated by US DOT, IMO, and IATA. It is not applicable for UN/NA number, hazard label, hazard placard, packing group, bulk packaging, RQ, and emergency response guide (ERG) number.

15. Regulatory Information

United States

IntePlus® Films Safety Data Sheet

U.S. Toxic Substances Control Act (TSCA): All component(s) comprising these products are compliant with TSCA. These products have no special requirements under TSCA (e.g. consent orders, test rules, 12(b) requirements, etc.).

OSHA Hazard Communication Rule: This product is not considered a hazardous material as shipped or at temperatures below the melting point according to OSHA definitions.

SARA Title III: This product is not subject to SARA Title III requirements.

SARA Section 302 Toxic Chemical List: No components listed.

SARA Section 313 Toxic Chemical List: No components listed.

16. Other Information

HMIS Ratings:	Health:	0
	Flammability:	1
	Physical Hazard:	0

Revision: 2023-06-12

Revision Changes: Changed format to 16 Section Safety Data Sheet (SDS) to comply with OSHA HazCom Standard update published in the Federal Register of March 26, 2012 and the UN Global Harmonization System of Classification and Labeling of Chemicals (GHS) requirements.

Refer to NFPA 652, Standard for Combustible Dusts, and NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling.

Disclaimer:

This Safety Data Sheet (SDS) conforms to the U.S. Department of Labor Occupational Safety and Health Administration requirements in 29 CFR 1910.1200 and is an integral part of any "RIGHT TO KNOW" program. This information should be read by the customer and made available to anyone who has reason to use or to come in contact with this product.

This information is furnished without warranty, expressed or implied, except that it is accurate to the best knowledge of World-Pak Division, Inteplast Group, Corporation.

Neither World-Pak Division, Inteplast Group Corporation nor any of its subsidiaries assume any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards, which exist. World-Pak Division, Inteplast Group Corporation assumes no legal responsibility for loss, damage or expense arising out of, or in any way connected with, the handling, storage, use or disposal of this product
